

Cell	Month	Week	Name	Environment	Faithwalk
Cell 6	November	Week 3	x	<p>Revealed to parents, keeping in contact regularly to reduce any persecution.</p> <p>Will have to travel to <x> in February for late Christmas and for 30th birthday. (4-5 days)</p>	
			x	<p>X's environment has gotten worse this week with X suspecting she is hiding something from him. This got much worse on Wednesday when her car broke down but she still made a way to come to service. He doesn't understand why her Mum bible group is so important and why her Thai church she can't even miss one time. Need to FB about this. He is texting her constantly to check her.</p>	<p>X is really trying, but her current environmental situation is quite difficult for her. She is trying to bear fruits and coming to service anyway, but we need to help her to overcome the situation.</p>
			x	<p>X's environment does not allow her to come to T at all the moment. Not attending service at T. (Semi) Maintaining fruit X.</p>	<p>X is working hard to maintain her faithwalk at home and is very active in our cell telegram group. She misses other members and feels really lacking, not being able to be at T. She is fulfilling her cell duty of SSN quotes and praying every day for everyone.</p>
			x	<p>Florist course 9-3 daily and looking after X. Struggles to say no to people like her friends, and is physically weak, always getting tired (easily overwhelmed).</p>	<p>X mentioned in service today that she wants to do more, seems she took SSN's words to heart a little. Will see if we can put it into action by harvesting with her this week.</p>

x	<p>Busy with work Wednesday - Saturday. She can get quite overwhelmed with her responsibilities plus SCJ life, as X is a handful, however she is improving with this. Doing the 75 question test at the moment and hoping to bear a fruit - X, and another, X, she is trying to catch up with. When studying for a test X finds it difficult to do other things, she gets very stressed. She has a job interview Tuesday.</p>	<p>X has been perceiving and improving a lot recently, with more passion for harvesting and for doing God's work. She is showing eagerness to overcome her environment and maybe even change her job (she has even applied for one, but was rejected). Will support and encourage this.</p>

Concerns	Other Notes	1-1 Meeting Plan
<p>X and X, volatile home situation. X is a big thorn. She doesn't always communicate until there is a situation, but it could be avoided if she thought ahead (I suggested a while ago that she make new wisdom or he will get suspicious).</p>		<p>Still need to make a coffee date with her. Haven't been pressuring her but will keep asking.</p>
<p>X has been getting quite emotionally involved with the persecution (getting very angry) and is seeing X as the worst one, rather than X. However she is strong, just needs to keep control of her emotions.</p>		<p>Meeting her on Wednesday and Friday to give her service catchup and chat to her, give waterflow.</p>
<p>Difficulty to gather (only come to T on Wed & Sun). When she doesn't feel well or is tired, she uses this feeling as an excuse not to evangelise or to come to T for meetings. She doesn't want to maintain any fruit or harvest, but only network fruit in her direct environment such as neighbours and workmates. She doesn't reflect but gives advice to others.</p>	<p>X is very welcoming into her home and also makes beautiful flowers for T. She has a lot of craft skill. Can help her through these things.</p>	<p>Make a plan to harvest and have a coffee.</p>

<p>Always late. She can be hard to meet and quite focused on herself, but opens up easily when talking. Would like to visit her at her house and see her in her own environment.</p>		<p>X is working a lot at the moment and has her next test on Sunday so doesn't want to meet, but maybe wants to harvest on Tuesday. I will have HWPL christmas party but X can harvest with her.</p>
